

## REPLACEMENT CARTRIDGES

Please note that the new "Max-Flow Series" systems and cartridges are currently under development, all sizes and final design are subject to change.

The New AETHER™ MAX-FLOW SERIES powered by BIOCON® utilizes a unique filtration media product that truly is a first in the water filtration industry. Our filters feature an improved capacity and flow rate, The New MAX-FLOW SERIES do not channel or cause pressure drop like other filters in the marketplace.

BIOCON®'s goal is to develop our products and technology to deliver superior results. Our technology is an integrated system that effectively controls your water issues.

### Features:

- Higher Flow Rates
